05-
Docket T-0058

Respondent

PETITION FOR SUPPLEMENTAL ORDER

Come now the Petitioners, Williamson County et al., and petition the Commission for the entry of a Supplemental Order allowing additional time to complete the work authorized in this docket proceeding.

By the Order entered March 22, 2006, the Commission authorized the construction of twelve new railroad-highway crossings in Williamson County on two coal-mine lead tracks, known as the west spur and the east spur. Four of the crossings are located on the east spur, and eight on the west spur.

The east spur track has been built, the four crossings have been built pursuant to plans submitted to the Commission and covered by X-Resolutions. The coal mine is in operation, and revenue shipments of coal are being made. However, the coal mine is not yet in full production. All outbound coal is presently being shipped via Canadian National Railway (Illinois Central).

The west spur track has not yet been built, and therefore the eight crossings on that spur have not been built. This spur track will be needed when the mine reaches full production, likely in the fall of 2007 or later. The Petition herein relates to the construction of the west spur and the eight crossings on it.

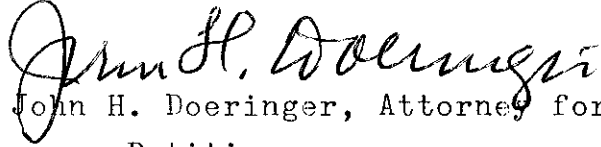

Petitioners herein request an extension of time of one year from March 22, 2007 to complete the construction of the west spur and the eight crossings thereon. This extension should provide sufficient time for the construction. If not, Petitioners seek

DEC 15 2006

DOCKETED

permission to be able to file another Petition for Supplemental Order or Petition for Extension of Time, to complete the work consistent with the development of the mine and its production.

Respectfully submitted,

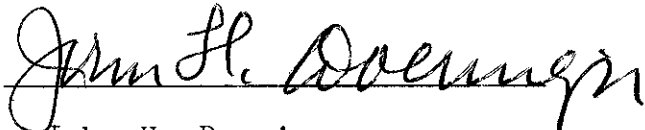

John H. Doeringer, Attorney for
Petitioners
